Alpine Aerotech has secured European Aviation Safety Agency approval for the company's Bell 206L and 407 Bear Paw Kit, which has already previously been certificated by Transport Canada and the US Federal Aviation Administration. The 206L/407 Bear Paw kit is one of several designed and manufactured by Alpine Aerotech.

Manufactured in high grade, UV resistant polymer, the Bear Paws use an innovative corrosion resistant clamping system, that greatly reduces installation time and enhances overall safety, and are guaranteed to retain their original shape over time. Competitive products tend to be weaker and to fold up after a period of use.

Jiangsu Baoli Aviation in China has taken delivery of two Kamov Ka-32A11BC helicopters from the Russian Helicopters Kumertau production plant, part of an order signed in November 2015 for four Ka-32A11BC. the third and fourth aircraft are scheduled for delivery later this year.

Previously 11 Ka-32A11C helicopters have been delivered to various Chinese customers for fire fighting, construction work and rescue operations. Three were delivered in 2015, in addition to the more recent sale last year. Jiangsu Baoli also ordered a further example for delivery by the end of 2017.

The UK distributorship for the Guimbal Cabri G2 light helicopter has been transferred from the Cotswold Helicopter Centre to a new company, European Helicopter Importers Ltd, following an injection of a significant amount of new capital by HeliGroup. Existing Cotswold directors Oliver Heynes and Andy Moorehouse will continue in their roles, with HeliGroup owner Matt Munson joining the Board.

HeliGroup is a UK-based operator providing helicopter training, charter, management and sales, with a fleet available that includes a new Leonardo Helicopters AW109SP, Airbus Helicopters AS355s, and Guimbal Cabri G2s. The new capital and reorganisation is expected to lead to the sale and leasing of Cabri G2 helicopters moving up a gear, building on the existing success of the type in the UK market.

Cotswold Helicopter Centre's training and charter operations at Kemble in Gloucestershire and at Fair Oaks in Surrey will remain unaffected by the distributorship change, with Cabri G2 training continuing as the primary activity. The company is also an AOC holder for charter work, with a fleet of seven Cabri G2, one Robinson R44, one Airbus Helicopters AS350B2 and one AS355 available.

**Two arm Chopper Spotter E model For Sale.**

**DIGITAL or PRINT  
ADVERTISING?**

NOW with

**HELIDATA  
News & Classified**

You get **BOTH**

- **The aviation community likes print ads**  
Polls show 75 percent of industry professionals prefer print, but digital has its place.
- **Online ads reach an audience for about three hours - Print ads are around for at least four weeks**  
Polls show over 60 percent of readers are influenced more by print ads in a magazine.
- **Mobile devices offer the best of both worlds**  
Print ads replicated on the screen combine the digital with the traditional, ensuring maximum reach with integrated marketing.
- **Advertising remains a Powerful Tool**  
Regular corporate slots keep your company's name and products in front of the industry decision makers and ads in pre-show issues increase the footfall at your booth, often at a fraction of the cost of your exhibit.
